Andrea Belvedere

AVP, Health Benefits and Solutions
Sun Life
Toronto, Ontario

Andrea Belvedere works across Sun Life and group benefits with a "client-first" mindset. She focuses on building and delivering products and experiences across Sun Life's extended health care, virtual care and disability product shelf. Andrea leads her team in innovating, testing and learning as well as finding new ways to deliver value to clients. Recently, Andrea led a team that brought new, industry-first capabilities to Amazon Alexa, allowing plan members to submit claims and complete health check-ins. Andrea joined Sun Life in 2017 and brings a range of experience that includes technology and organizational transformation consulting. Outside of work, Andrea runs a women's hockey league and has been playing hockey for almost 30 years.
